

AHO
Insurance Commission

Here are some more facts to consider
in your study:

My House payment has increased over
\$100 per month, or 20%, due to Wind
Coverage.

Allstate has increased premiums on their
coverage by 8%.

When I bought this garden style home new
in 2001, I paid \$75,000 for it. Allstate
has increased the dwelling protection every
year and this year it is up to \$109,000 (45%)
"Other Protection Coverage" is up to \$10,900.

I have 'no other structures'

'Personal property protection' is now up
to \$76,300. One-third of this amount would
more than replace all of my personal property.

It appears to me that they ~~arbitrarily~~ ^{arbitrarily}
increase these values so they can increase
the premiums and this should not be allowed!
